DACIA - CRISTIANA OPREA

Cristiana Oprea

Tom Bruinink

Cristiana Oprea is a 25 years old rally driver. She currently combines her activities as a blogger and motorsport PR for Dacia Cup with graphic design activities with her agency nucagency.ro.

It all started in 2015 when she decided to launch Emoticar.ro, her blog with stories about cars, although having no background at all in this area. It started as a hobby but quickly turned into a full-time job, as her passion and curiosity grew even more after she discovered rallying and understood the connection between the automotive

industry and motorsport.

Her very first rally was in 2015 on gravel at Harghita, where she was a co-driver for her mentor, George Grigorescu, who is also the organizer of Dacia Cup. She believes starting as a co-driver helped her be more in control as a driver in 2016, where she completed 2 races in Dacia Cup with a

Logan 1.6 MPi.

Cristiana's first full rally season as a driver in the National Rally Championship was 2017, where she competed in an all-female crew with her new Sandero 0.9 TCe. She finished the season 11th overall out of 19 competitors in Dacia Cup, and 6th place rookies. She is also a member of ProRally Team Brasov which represents Brasov city, vice-champions in the 2017 Team's Standings.

Now Cristiana is preparing for her second season in Dacia Cup, as one of the few female rally drivers in Romania. Her objective is to gain experience and build a way towards the European Rally Championship. More about the Cupa Dacia 2018 in a future Renotes.
